The Many Reasons to Support Small Business Saturday

Small business is big business across much of North America. According to a 2024 report from Innovation, Science and Economic Development Canada, nearly 98 percent of all businesses in Canada are small businesses, which the Government of Canada defines as firms with one to 99 paid employees. Small businesses boast an equally notable presence in the United States, where the Small Business Administration reports such establishments account for 99 percent of the nation's firms.

With such a profound presence in both Canada and the United States, it's no wonder small businesses are championed at a point in time when shopping takes center stage. Small Business Saturday occurs each year on the Saturday after American Thanksgiving, making it part of a weekend that is often characterized as the start of the holiday shopping season. With small businesses set to take their well-earned turn in the spotlight, consumers can ponder the many reasons to support Small Business Saturday this year.

• Small businesses are significant employers. The term "small business" can be misleading, particularly in terms of job creation. While small businesses are generally described as firms with fewer than 500 employees, recent data from the SBA indicated small companies accounted for two-thirds of employment growth across the U.S. over the last quarter century, ultimately generating around 13 million jobs during that time period. Small businesses also are big-time employers in Canada, where the ISEDC notes such firms employed 46.5 percent of the nation's total private labor force in 2023. Those jobs are filled by consumers' family members, friends and neighbors, and supporting these employers ensures those individuals can keep earning.

• Small businesses help to fund vital local services. Another notable reason to support small businesses is their role in creating strong local tax bases. The revenue generated by successful, local small businesses strengthens communities because it translates into tax income for local towns, which benefits schools, community organizations and public safety.

• Small business spending is more likely to stay in the local community. Another way supporting small businesses benefits communities relates to where consumers' dollars go once they're spent.

acp Association of Community Publishers — CIRCULATION AUDIT BY CIRCULATION VERIFICATION COUNCIL

conintued from page 4.

Data from the American Independent Business Alliance indicates 48 percent of each purchase at a local independent business was recirculated locally. By comparison, just 14 percent of purchases at chain stores was recirculated locally. That means more than three times as much money is staying in communities when consumers buy from locally owned businesses compared to chain retailers.

There's no shortage of reasons to support Small Business Saturday. This year, consumers can do their part and give local small businesses, and the communities they call home, their unwavering support by shopping local on Small Business Saturday.

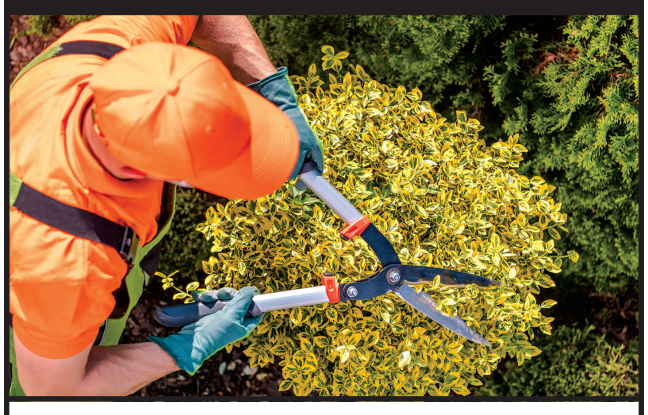
TOOLS

This is a good time to clean your hand tools. Remove all dirt and rust from the metal, sand and repaint wooden handles. Store in a dry location for the winter.

BULBS

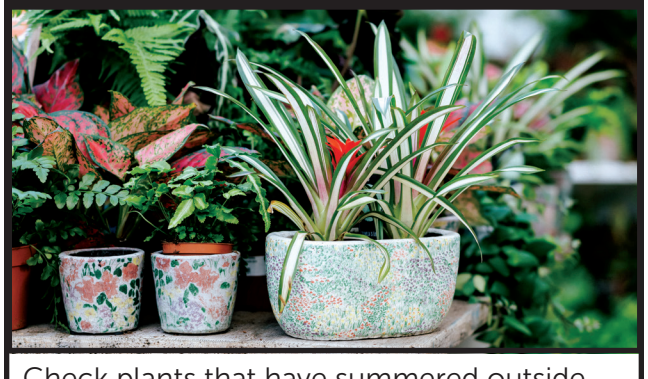
As long as the ground has not frozen, you can plant spring bulbs directly into the garden. Follow instructions on bulb packaging for depth of planting & provide a mulch cover over the top of newly planted bulbs to prevent heaving.

TREES & SHRUBS



Continue to water your trees and shrubs until the ground freezes. Tie up or trim back branches of loosely branched Evergreens. Pull mulch away from trunks to prevent rodents from hiding and eating the bark.

HOUSEPLANTS



Check plants that have summered outside for pests frequently. Reduce your rate of watering to allow for slower growth and do not fertilize until spring. Plant forced bulbs (paperwhites, amaryllis) now for winter interest.

First Friday

Downtown Spokane, WA
Friday, December 5

As a wise philosopher/popstar once said: "You gotta get down on Friday." Maybe Rebecca Black wasn't referring to Spokane's First Friday celebration, but the meaning of the phrase still rings true. Get down on Friday at Entropy Gallery with the opening of "Uncanny Valence," a show about the inauthenticity of social media, or head across the street to the Liberty Gallery above Auntie's Bookstore to catch artist Lauren Urlacher's vibrant paintings of dahlias. The Terrain Gallery features Walla Walla-based artist Emily Somoskey's abstract mixed-media paintings that reflect on how our lives are shaped by both steady constants and ever-changing variables. No matter where you end up this First Friday, in the words of Rebecca Black, it's gonna be "fun, fun, fun, fun!"

The TRVST Open Decks

120 N. Wall St, Spokane
Wednesday, December 3, 9pm

While singer-songwriters and instrumentalists have long had open mics to get their foot into the live performance world, those spaces aren't exactly conducive to DJs. But the TRVST Open Desk, a weekly showcase, is essentially an open mic for DJs. Hosted by KosMos the Afronaut and SAV, local performers are given 30-minute blocks to showcase their sound — all styles and genres welcome (interested DJs can reach out to KosMos and SAV on Instagram to claim a spot on the lineup). The hope is that Open Decks can become a go-to spot where DJs can showcase what they've been working on while mingling with their peers in the scene and creating a free dance party anyone can enjoy.

DID YOU KNOW?

• Small businesses accounted for 65% of all net new jobs over the past 17 years.

• Small businesses employ 77 million Americans.

• 89% of consumers agree that independent businesses contribute positively to local economies.

• Residential neighborhoods served by a successful independent business district gained, on average, 50% more in home values than their citywide markets.

• Independent restaurants return more than two times as much money per dollar of sales than national restaurant chains.

• If independent businesses regain their 1990 market shares, it would create 200,000 new small businesses, generate nearly $300 billion in revenues and employ more than1.6 million Americans.

• If just half the U.S. employed population spent $50 each month in locally owned independent businesses, it would generate more than $42.6 billion in revenue.

• For every square foot a local firm occupies, the local economy gains $179 vs. $105 for a chain store.

WEEKLY Horoscopes

for Nov. 27 - Dec. 3

ARIES – Mar 21/Apr 20

Right now you are inspired to roll up your sleeves and clear away the clutter so you can focus on what counts, Aries. Your productivity soars this week.

TAURUS – Apr 21/May 21

Your words will carry extra weight between this week and next, Taurus. Don't hold back on speaking about what is in your heart. You may navigate your way to romance.

GEMINI – May 22/Jun 21

Gemini, this week you may feel energized to pursue new connections with family and friends. Plan a few long overdue catch-ups, and bask in that feeling of contentment.

CANCER – Jun 22/Jul 22

Some may call you timid, Cancer, but not this week. You put all of yourself out there the next few days, and others may be hanging on your every word.

LEO – Jul 23/Aug 23

Money is at the top of your priority list, Leo. You may be dreaming big or content to just make sense of finances that have gotten a bit off the rails.

VIRGO – Aug 24/Sept 22

Virgo, it's all about honesty this week and letting others in. Don't sugarcoat things with the people you love. They will love you even if you're in need of some support.

LIBRA – Sept 23/Oct 23

Libra, release what is draining your energy, especially before the busy holiday season is in full force. Wrap up lingering projects and bow out of obligations that are stretching you too thin.

SCORPIO – Oct 24/Nov 22

Scorpio, you are selective about your social circle, but stay open to new friendships. New allies bring surprising opportunities if you simply let them in.

SAGITTARIUS – Nov 23/Dec 21

Your ambitious streak is on fire right now, Sagittarius. Partnerships and acquisitions are very much within reach, so start conversations now. It's time to network as much as possible.

CAPRICORN – Dec 22/Jan 20

You pride yourself on telling it like it is, Capricorn. But candor can sometimes be costly. A measured approach in a delicate situation this week can serve you well.

AQUARIUS – Jan 21/Feb 18

Typically "what you see is what you get" is your mantra, Aquarius. Yet, this week you might hold something back to be a bit more mysterious. Others may not catch on right away.

PISCES – Feb 19/Mar 20

Relationships take center stage in your life, Pisces. Talks of further commitment could come up more often than in the past. This is an important time.

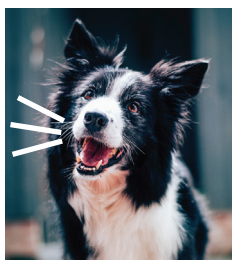
GETTING A PUPPY?

Congratulations on making the choice to add a new member to your family! Before your furry bundle of joy comes home make sure you are dealing with a safe source & asking the right questions. Here are a few tips to help you make a responsible choice and avoid disreputable breeders, pet shops or puppy mills in the process!

1) HOUSE CALL: It may be tempting to meet the breeder somewhere in between but drive the extra hour and see where the puppies are being raised. Pay attention to the conditions in their home and kennel. Are the kennels clean? Odor free? Are the dogs on site clean, well fed, lively and friendly? Do any of the animals exhibit signs of malnutrition or illness? Visiting the premises is a huge indication whether or not the puppy you are buying is socialized, loved and healthy.

2) MEET THE PARENTS: While on site take a bit of time to interact with the puppies parents. This will give you insight into what their puppies may be like as they mature. Pay attention to their size, demeanor, temperament and appearance. Can you handle this size of dog? Does the breeds energy level match your own? Does either parent have any health issues? Genetic issues?



3) TALK SHOP: Sitting down with the breeder and getting to know them, their business and their dogs is crucial to making an educated purchase. How long have they been breeding? What is their experience with the breed? Are they involved with any breed clubs or organizations? Do they offer a health guarantee? Is there a purchase contract and what does that entail? Can we call you with questions or concerns? Can you get a copy of all health and registration paperwork on the parents and puppies?

4) DOG PILE: Puppies are naturally curious and should not be shy when meeting new people. Watch the litter to see if any shy away from the breeder, seem scared or nervous. Are they socialized? Would one of these puppies fit into your life? How old are they? Are they eating hard food? Have they started being house trained? Kennel trained? Up to date on vaccinations? Are they ready to go home?

Asking these questions and more will keep you and your new best friend healthy & safe!

CREATURE FEATURE

PEAFOWL

Typically kept in rural areas as free-roaming flocks, Peafowl are territorial birds with a reputation for having an attitude as impressive as their feathers. While all Peafowl are brightly colored and beautiful birds, only the males have the large, brillant tail feathers that the animal is known for. Peafowl spend a majority of their time on the ground, but they are flighted, and keepers should plan on trimming the wings of their flock regularly.

LIFE SPAN: Approx. 10-15 Years

ADULT SIZE: Approx. 8-13 lbs.

DIET: Millet, Corn, Seeds, Fruit, Bugs & Commercial Gamebird Diets

HOW MANY: Best in Flocks

DIFFICULTY:

SET-UP — Moderate

CARE ROUTINE — Moderately Easy

COST OF UPKEEP — Low

AVAILABILITY — Moderate

HABITAT:
An acre of land is recommended as a good sized territory for a flock of peafowl. These colorful birds like to roost in high places at night, so you'll want to include a few trees in their area. Feeding them at the same time and in the same place every night will help train them to return home to roost.

NECESSITIES:
- As Large an Area as Possible, Fenced to Keep Out Predators
- Trees, Low Plants & Shelters for Roosting, Protection from Weather & Shade
- Large Water Dishes

ACCESSORIES:
- Shiny Cat Toys or Toys with Bells

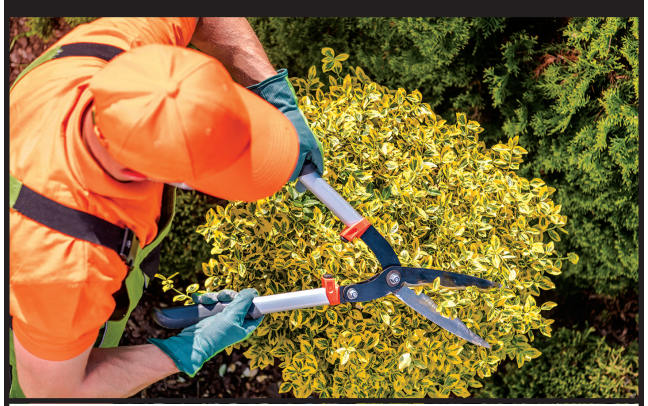
TOOLS

This is a good time to clean your hand tools. Remove all dirt and rust from the metal, sand and repaint wooden handles. Store in a dry location for the winter.

BULBS

As long as the ground has not frozen, you can plant spring bulbs directly into the garden. Follow instructions on bulb packaging for depth of planting & provide a mulch cover over the top of newly planted bulbs to prevent heaving.

TREES & SHRUBS



Continue to water your trees and shrubs until the ground freezes. Tie up or trim back branches of loosely branched Evergreens. Pull mulch away from trunks to prevent rodents from hiding and eating the bark.

HOUSEPLANTS

Check plants that have summered outside for pests frequently. Reduce your rate of watering to allow for slower growth and do not fertilize until spring. Plant forced bulbs (paperwhites, amaryllis) now for winter interest.

OPERATION DOG TAG

OperationDogTag.org

As a veteran struggling with PTSD, I was beginning to feel like a cripple and a recluse. Without my wife, I would not leave my home alone. My anxiety was through the roof. Knowing my affection for animals, my loving wife suggested getting a service animal, believing another companion could ease my anxiety and bring some normalcy back to our lives. With her support, we added Woodrow to our home and sought out programs to help train him. We found Operation Dog Tag. I am grateful to find a program that understands my needs and understands the combat veteran. With Operation Dog Tag, I now have a sense of hope and confidence.

Fishing Magician

Dave Ingalsbee

Reach Dave @ www.FishingMagician.com or FishBoy@nwi.net "The Outdoor Insider"

I hope everyone enjoyed a Thanksgiving Holiday with family and friends. My brother Rick and I often took our father out on a fishing adventure during this long weekend. We were famous for showing up late for dinner. We were just having too much fun!

The news release about Getting Outside on Black Friday with special plants of trout in many lakes in the state got anglers excited, particularly about Roses Lake in Chelan County. A friend of mine looked up the planting report and immediately contacted me. He had visions of bringing home some whopper rainbow. I am not certain, but I think he and others may have read the report and thought that the fish that were planted in Roses Lake in late October weighed 2.5 pound each. Actually, the fish were 2.5 per pound, which is a typical "catchable" that most lakes are planted with each season, and average 10 to 11 inches. I did see that 450 jumbos were to be included in the stocking. Anyway, I charged up the Minn Kota and hooked up the Bob Feil Boats and Motors Smoker Craft Phantom, and my friend Jim and brother in law Tom and I gave Roses Lake a try. We trolled Wooly Bugger type flies on our fly rods, and I put one rod out with a perch pattern Rapala, and our rods were bouncing constantly. We caught and released at least 20, 10- to 12-inch rainbow and a few tiger trout.

I wanted to see if there was any activity at the I-90 Bridge in Moses Lake last week, so I pulled into Blue Heron Park. The perch fishing in this area last year was excellent and I wanted to see if I wanted to plan a trip here and give it a try. I didn't see anyone on the bridge but did see a kayaker paddling off the shore. While I was watching him, he was catching fish, and it looked like they were perch. There was just one angler fishing from the rip rap bank near the channel under the bridge, but he wasn't having much luck while I was there. I also went by the boat launch at the park and found that the dock had been pulled but boaters are still using it. A friend of mine will take a small ladder with him when he launches his boat when the water is down. He uses it to step into his boat to keep from getting too much mud on the deck.

One of the lakes that I visited recently was Lake Lenore, which is a quality lake located just up the road from Soap Lake on Highway 17. This is another lake that will be closing at the end of November and offers good fishing for big Lahontan cutthroat. I say it is a quality lake because it is under selective gear rules, meaning no bait is allowed and anglers must use barbless hooks. The daily limit is one fish of at least 18 inches. Most often you will see fly fishers paddling a pontoon boat, kayak or float tube on the lake, and only electric motors are allowed. There is very good bank access on the eastern shore of the lake, and when I stopped by there was a group of anglers casting lures and spinners at the very north end. If you want more current advice about how to fish Lenore and what to use, I suggest you see Darc Knobel at the Desert Fly Angler in Ephrata. This week's photo was taken from the overlook at Dry Falls Lake, which is just up the road from Lake Lenore. There isn't any shore access to Dry Falls so fly fishers fish this one from a pontoon boat, float tube or kayak. I found fishing conditions very good at both of these lakes, so give them a try before they close! I visited some other popular fishing destinations. Follow me on the FishingMagician.com Facebook page to see them all.

The Washington Department of Fish and Wildlife (WDFW) announced today that its new digital licensing app, MyWDFW, will be launching soon in alignment with the 2026 license year.

"We're committed to ensuring everyone finds belonging in the outdoors," said WDFW Director Kelly Susewind. "This app modernizes how hunters and anglers access licenses in Washington, improves customer experiences, and ultimately helps prioritize people's time where it matters — enjoying Washington's great outdoors."

"We're also excited about the advancements this app brings for real-time harvest data collection and support for long-term fish and wildlife conservation," Susewind added.

When MyWDFW launches to the public soon, it will be free and available from Google Play and Apple's app stores.

The MyWDFW app is a comprehensive mobile licensing tool for both hunters and anglers. It supports license purchases, displays active hunting and fishing license privileges, and enables electronic tagging for a wide range of game species, including deer, elk, turkey, and black bear.

App users can report migratory bird harvests and submit end-of-season harvest reports, with most features available offline. Other functionalities incorporated into MyWDFW and soon available to Fish Washington® include catch record cards for select fish species and an Enforcement View for WDFW officers, along with access to customer licensing (WILD) profiles.

App users who opt to become a mobile license customer will have valid mobile license products at the start of the new license year on April 1, 2026. Once the MyWDFW mobile app launches, people with existing 2025 licensing products will remain paper license holders through the 2025 license year and then will have the option to switch to mobile for the 2026 license year. For the rest of the current calendar year, 2025 licensing products will also be available exclusively in paper.

MyWDFW's launch is the first step in the Department's long-term plan to phase out durable-paper stock licenses in favor of mobile licensing. The Department will share more information about this transition as it becomes available.

I want to remind everyone that they can find more current information on fishing in the region, as well as instructional videos, by going to the FishingMagician.com Facebook Page. Be sure to Follow me so you don't miss any new posts.

Learn to Decorate like a Holiday Pro

The sights and sounds of the holiday season help to make this a special time of year that people look forward to. With its magical moments and opportunities to gather with family and friends, the holiday season is a period to celebrate and, of course, decorate. According to an informal poll from the decorating, culture and travel experts at Veranda, 65 percent of respondents said that the time to decorate for Christmas is right after Thanksgiving or the first week of December.

Many stores now display holiday decorations and other wares concurrently with Halloween and fall items, so people can plan their decorating early if they expect to be adding to their holiday collections. These tips can help with decorating and make anyone deck the halls like a professional.

• Choose your theme and color palette. Consider a specific style of decorating, whether it's traditional, minimalist, country, or even winter wonderland. Then select a few coordinating colors to complement the theme and existing items in your home. Pick up these items as they become available in stores, as holiday merchandise often goes quickly.

• Focus on a few key areas. While it's tempting to decorate an entire home, pros know to focus on key areas like tables, doorways and mantles to create the most visual interest. This also makes decorating more manageable.

• Rely on the rule of thirds. Create balanced and visually pleasing arrangements by dividing the space visually into nine equal parts, symbolically drawing two equally spaced horizontal and two equally spaced vertical lines. Designers often place important elements along these lines or at their intersections to create a more visually balanced and appealing composition. When grouping decorative items together on shelves and tables, threes often look best.

• Remove clutter. It's important to declutter a space prior to introducing holiday elements in order to create a clean and organized look. Store additional decorations and knickknacks until after the holiday season.

• Start with lights. It's often easier to decorate by beginning with lights first, and then weaving additional decorations into the mix. Build on lights with garlands and accent items.

• Less is often more. Keep the decorating simple. A few elements here and there can have a much more effective impact than several things that draw attention away from one another. When taking out holiday decorations this year, use it as an opportunity to assess and cull the collection, which will make things easier next year.

Homeowners can decorate their spaces for the holidays effectively with some guidelines professional designers often use.

Guess Who?
I am an actress born in Barbados on December 31, 2008. I discovered my passion for acting as a young girl, and I attended the London Academy of Music and Dramatic Arts. Lighting to improve the look and safety of our homes, electric tools to make our outdoor work easier, and power lines to our home, all need to be handled with care.

Outside Electrical Work

- Have a qualified electrician do all electrical work.
- To prevent an electrical shock, make sure all your outside electrical receptacles are GFCI (ground-fault circuit interrupter) protected.

Equipment Safety

- Use lighting and power tools that are listed by a qualified test laboratory and make sure they are made for outdoor use.
- Store your electrical tools indoors.
- Keep electric tools away from children.
- Keep the area around your electric meter and other electrical equipment clear.
- Check lighting and extension cords for damage before using. Replace any damaged cords right away.
- Use extention cords that are listed by a qualified test laboratory and are marked for outdoor use.
- Extension cords are not meant for long-term use.

POWER LINES

Have a professional tree cutting service trim branches that might fall on electric wiring. Use a wooden or fiberglass ladder outside. Keep the ladder at least 10 feet away from power lines. Never touch anyone or anything in contact with a downed wire. Power lines may be live, stay a safe distance away. Report downed wires to authorities right away.

IMPORTANT REMINDER

Call **"Before You Dig" (8-1-1)** before any digging on your property. They will mark where your underground utilities are located. ***It's a free service!***

Real Estate Trends & Advice

IS THE WEATHER THE DECIDING FACTOR?

Out-of-area-buyers often only look at property during seasons of the year when there are not adverse weather conditions. Knowing how weather might affect a certain property or certain types of structures could be a vital deciding factor. Since there are many micro-climates in our region, there should be much research done and information gathered before making the decision to purchase.

In my area, which is an extreme snow belt, many folks from warmer regions have come and gone, usually only lasting one winter before deciding that it just isn't for them. If you have the fortitude to handle areas that accumulate such snow levels, then care should be taken to look for proper construction methods that not only can physically handle the snow loads and other weather related issues, but also have styles that allow less impact when conditions are adverse, such as covered porches and metal roofs that slide away from doors and driveways.

Manufactured Homes typically have a sticker inside the home (kitchen cabinet or electrical panel) that indicates what the insulation factor is, along with the engineered roof load and whether it is sufficient for the area you live in. How is the road getting in and out? It may be fine now, but just wait until February or March! Does the road have steep grades, shaded areas, or narrow passages? Who maintains the road? Is there a written road maintenance agreement? Is there flooding in the spring and is the runoff properly ditched?

Some years ago while viewing a manufactured home that I was attempting to list for sale, I noticed that there were exposed pipes underneath the home that were not insulated and were exposed to the elements. Upon further investigation I noticed that the pump house was also un-insulated but that there was a tiny wood stove installed which I assumed had been there from past attempts to thaw out frozen pipes or to keep them from freezing. Some inexperienced buyers may overlook situations like this until they find out the hard way!

When looking for your next home in the country, choose a local real estate expert who will be aware of the factors involved in owning rural properties in all seasons of the year, not just in the summer time when most folks look.

1 pinch ground cloves

1/4 cup maple syrup

1 cup heavy cream

1. For the crust: Combine the butter, flour, maple sugar, and salt in a food processor. Pulse until the mixture resembles rough breadcrumbs.

2. Add the egg, vinegar and 1 tablespoon iced water. Pulse until the dough starts to form around the blades; add more water as needed if too dry, or a little more flour if too wet.

3. Turn out onto a lightly floured surface and shape into a disc. Wrap in parchment paper and chill for at least 1 hour.

4. For the filling: Preheat the oven to 400 F. Place the pumpkin halves flesh-side down on a large baking sheet.

5. Roast for 30 to 40 minutes until the flesh is tender to the tip of a knife. Remove from the oven and let cool to one side.

6. Once the pumpkin is cool enough to handle, scoop out the flesh into a bowl and mash well until smooth..... *continued on page 30*

7. Beat the eggs with the flour, maple sugar and ground spices in a large mixing bowl until pale and thick, about 3 minutes.

8. Gradually beat in 1½ cups of the pumpkin mash followed by the maple syrup and cream until fully incorporated.

9. Roll out the pastry on a lightly floured surface into a large round approximately 1/3-inch thick.

10. Drape into a 9-inch pie dish, pressing well into the base and sides. Cut away any excess pastry before crimping the edges with your fingers.

11. Gently prick the base all over with a fork before slowly pouring the filling into the lined pastry.

12. Bake for 20 minutes before reducing the oven to 350 F. Bake for a further 40 to 50 minutes until the filling is set and starting to come away from the edges of the pastry; a knife should come out clean from the center.

13. When ready, remove from the oven to a cooling rack. Let cool completely before serving.

Tip: If preparing in advance before serving, let the pie cool completely before wrapping in plastic wrap and chilling.

How to Prepare for Emergencies

There are many things you can do to prepare for an emergency—but where do you begin? You can start by making an emergency plan and building an emergency kit for you and your family.

1. Make an Emergency Plan

Consider these questions and plan for each!

- How will you receive notifications? *(See #3 below)*
- Where will you stay during an emergency?
- What is your evacuation route?
- How will you communicate with your household?

2. Build an Emergency Kit

These items are recommended for making a basic emergency supply kit.

3. Sign Up for Alert Spokane

Receive emergency alerts for your area.

SPOKANE — Fastkart Speedway in Spokane is running a karting league with the next league race Tuesday, Dec. 9

The best way to get involved is join the Facebook group, Spokane Indoor Karters, where all the information and dates are posted.

"Anyone and everyone is welcome to be part of the league, you just have to show up," Zimmer said. "For the enduro they have to find a team then send in a deposit to lock in." The most recent top race finishers from Nov. 18 are pictured.

Fastkart is located at 1224 E. Front Ave. in Spokane, (509) 568-1065.

Top three in the Light class (L-R): Lincoln Heidman (3rd), Andrew Zimmer (1st) and Thomas Egger standing in for Shelby Thompson (2nd).
